

CONTRACTOR
Institute of Mathematical Statistics and Applied Mathematics "Gh.Mihoc-Caius Jacob"

**Annex IIb / the funding contract
no. 152/2007**

DIRECTORY
Acad Iosifescu Marius

Program:	IDEI
Type project	Projects Exploratory research
Code project	ID_880

Minimum criteria expected performance
Name project: Modeling of stall delay due to rotation

-Frame structure

Year	Number of articles accepted for publication ISI journals	Number of articles accepted for publication in journals indexed in international databases	Number of national patent applications filed	Number of patent applications made international
2007	----	1	----	----
2008	----	1	----	----
2009	----	1	----	----
2010	1	----	----	----
TOTAL	1	3	----	----

Minimum performance awaiting for a project funded under the "IDEAS": number minimum of articles accepted for publication in ISI journals / databases international data is equal to the number of researchers experience of project team.

Researchers with experience, as international practice, are those older than four years, equivalent full postdoctoranzi research or researchers.

Director project,
CS I. Dr. Eng Horia Dumitrescu Teodor
