

MATHEMATICAL REPORTS
VOL. 12(62)· No. 2· 2010

CONTENTS

Gavriil PĂLTINEANU	GHEORGHE BUCUR on his 70th birthday
Francesco ALTOMARE and Graziana MUSCEO	Degenerate second order differential operators with generalized reflecting barriers boundary conditions
Lucian BEZNEA and Andrei-George OPRINA	A class of subordination operators on a direct sum
Ileana BUCUR	On a Denjoy-Bourbaki type inequality and some applications
Cezar JOIȚA	Prescribing projections of Runge domains in Stein spaces
Constantin P. NICULESCU and Josip PEČARIĆ	The equivalence of Chebyshev's inequality with the Hermite-Hadamard inequality
Eugen POPA	Resolvents of kernels associated with absolutely continuous semigroups
Irina POPA and Nicolae POPA	Inequalities in matrix spaces
Emil POPESCU	On the fractional Cauchy problem associated with a Feller semigroup
Ilie VALUȘESCU	Some connections between the maximal function and linear systems
