MATHEMATICAL REPORTS

VOL. 14(64)· No. 2· 2012

CONTENTS

| | |
|--|--|
| U. C. DE and Avijit SARKAR | On the quasi-conformal curvature tensor of a (k, μ) -contact metric manifold |
| Silvia DEDU | Optimization of some risk measures in stop-loss reinsurance with multiple retention levels |
| Xianjiu HUANG, Chuanxi ZHU and Xi WEN | Fixed point theorems for expanding mappings in cone metric spaces |
| Marin MARIN | On some singular integral equations in asymmetric elasticity |
| Ruxandra MARINESCU-GHEMECI | On star partition dimension of trees |
| Saima PARVEEN and Muhammad Saeed AKRAM | Parameterized stationary solution for first order PDE |
| E. PEYGHAN and M. GÎRȚU | An almost paracontact Riemannian structure on indicatrix bundle of a Finsler manifold |
| Georgiana POPOVICI | On the covariance structure of UAR(2) processes |
| Ahmet YÜCESAN and Erol YAŞAR | Non-degenerate hypersurfaces of a semi- Riemannian manifold with a semi- symmetric non-metric connection |
